

Elluminate *Publish!*™

Create portable, reusable learning content—with Elluminate *Publish!*™
It's the affordable, easy-to-use way to make the most of your recorded Elluminate *Live!* sessions.

Audio Podcaster

Your faculty, administrators and students are always on the go. Now they can take Elluminate *Live!* recordings with them on their iPod or other portable MP3 player.

Create audio podcasts in just seconds from any recorded Elluminate *Live!* session. Store in your content management system, portal, or website.

Elluminate Unplugged Recordings

What about when you're not connected to the Internet? You can still experience the rich interactivity of an Elluminate *Live!* recording in its native format.

Create Elluminate Unplugged recordings to post to a web server, send via email, or distribute on CD. Anyone can view the standalone recording—even if they've never been in an Elluminate *Live!* session.

Enhanced Podcaster

Stay tuned for Enhanced Podcaster, scheduled for release in 2008. Convert Elluminate *Live!* recordings to enhanced podcasts that include both audio and visual elements.

Engage More People in More Ways

Leverage the value of your Elluminate *Live!* recordings—any time, any place. Make it happen with Elluminate *Publish!*

"Elluminate has taken a step toward a web-delivered, ubiquitous, and standards-based recording platform."

Ben Rogers, Duke University

What You Can Do ...

- Create portable, reusable learning content
- Leverage content of Elluminate *Live!* session recordings
- Create industry-standard audio files
- Create standalone recordings
- Store audio files on your own hard drive
- Post recordings on web server
- Distribute recordings by email or on CD
- View content, even when not connected to Internet
- Save or print whiteboard/text chat (if allowed during live session)
- Save original files transferred during original session
- View user profiles of session attendees (if allowed during live session)
- Automatically be pushed to websites shown during live sessions (if connected to Internet)

"Elluminate Publish! is very easy to use! I've chosen to just download the .JNLP file to my desktop and convert to a 32Kbps MP3 file. We would like to start podcasting, and since we already have the content in Elluminate, there is no need to replicate our efforts."

Corey Dickey, Lancaster-Lebanon School District

Don't wait.

What makes Elluminate the clear choice for live eLearning and web collaboration?

- Best-in-class user experience, with No User Left Behind™ technology that ensures everyone is in sync and no content is ever lost
- Crystal-clear, full-duplex audio that replicates interaction of face-to-face classroom
- Universal access for Microsoft Windows, Mac OS, Linux, and Solaris users
- Feature-rich learning environment designed with pedagogy in mind that enhances distance learning and extends the physical classroom
- Advanced moderator tools for easy content creation, presentation, and control, along with unprecedented moderator awareness
- Collaborative Communication Framework (CCF) for optimal connectivity, reliability, and performance, regardless of Internet connection speed
- In-sync communication that supports all teaching and learning styles for an engaging learning environment
- User-friendly, intuitive interface that's easy to use and customize
- Accessibility features that enable users with disabilities to fully participate
- Interactive, indexed recordings that can be easily converted to industry-standard audio files, providing portable, reusable learning content
- Functionality that facilitates small group interaction, enables blended learning, and fosters social networking
- Rapid return on investment (ROI), with increased productivity and decreased travel and phone costs
- Industry-leading customer service and a community of users where you can share your experiences and learn from others.
