

# the social learning network for education

## Passionate about teaching and learning? LearnCentral™ is all about YOU!

Brought to you by Elluminate, LearnCentral is more than a social network or a learning community. It's a new social learning network where educators worldwide can connect with peers, share content, build portfolios, access resources, and attend events. You can even collaborate in real time with your own free virtual meeting room from Elluminate.

## No Educator Left Behind

LearnCentral is for ANYONE who wants to develop professionally. It's all about being the best educator you can be. The tools, resources, groups, forums, and events available on LearnCentral can help. Plus, LearnCentral is moderated by Elluminate Social Learning Consultant Steve Hargadon, founder of Classroom 2.0 and an avid blogger, podcaster, webinar host, interviewer, and columnist.

## Always Learning—Together

21st century education calls for 21st century solutions. That means the learning landscape must evolve into something called EDU 2.0, an environment in which Web 2.0 tools come together with traditional and virtual classrooms, physical campuses and distance learning programs, learning communities and social networks to transform education. The way we accomplish this is to be always learning—together.

## FREE Virtual Meeting Room

Meet in real time with up to two other people or locations, hold virtual office hours, collaborate with colleagues worldwide, and more—with Elluminate vRoom™. It's easy to download, easy to install, and easy to use. Think of it as your own hosted, three-seat virtual meeting room that's available 24/7—with the robustness and reliability of Elluminate *Live!*® And best of all, it's absolutely FREE when you join LearnCentral.

# the social learning network for education

## FREE Public Conference Room

Need to accommodate a larger group? Hold your meeting, webinar, or other event for up to 300 participants in a free public-use Elluminate room on LearnCentral. To qualify, the event must be education oriented, free to participants, recordable, and open to anyone. The session recording will be available as a LearnCentral resource.

## LearnCentral Private Community

Want a custom-branded, private version of LearnCentral? LearnCentral Private Community provides a customized, branded portal with highly configurable privacy options. Choose to have your own LearnCentral community where all member profiles, content, groups, and discussions are completely private. Or create a hybrid community where members and/or the community manager choose which resources are made available in the public LearnCentral network. Plus, if you are a hosted Elluminate customer, you can use your own Elluminate rooms within the community.

## Why LearnCentral?
