

# Elluminate Learning Suite™

21st Century students learn differently.  
21st Century educators need the tools to reach them.

Engage. Enlighten. **Elluminate.**

The eLearning landscape is evolving, and Elluminate continues to lead the way with next-generation solutions for a new generation of learners. Built on our No User Left Behind™ technology, the Elluminate Learning Suite™ enables you to communicate, collaborate, and educate across time and distance while driving down costs.

At Elluminate, we listen to our customers. That's why the majority of our new features and functionality are a direct result of customer feedback. The newest additions to our best-in-class, learning-edge suite of products include Elluminate *Plan!* V2, Elluminate *Live!* V9.5, and enhancements to Elluminate Bridges for integration with popular learning management systems.

### **Administrators: Reach and Engage More Students at a Lower Cost**

Get the technology, functionality, and scalability you need NOW to support 21st Century learning throughout your extended enterprise. With immediate cost savings, quick ROI, and improved learning outcomes, Elluminate is one of the best decisions you will ever make for your academic institution.

### **Academic Technologists: Expand Existing Infrastructure with Live eLearning**

Add reliable, scalable learning-edge tools to your academic framework to provide accessibility, flexibility, and convenience for all your users. Elluminate provides easy, seamless integration with some of the best LMS environments available.

### **Educators: Facilitate a Best-in-Class Learning Experience**

With the Elluminate Learning Suite, you can make the transition from physical to virtual classroom and beyond to support the entire online instructional cycle with session planning, live interaction, and recorded learning objects. Ensure a truly engaging multimedia environment that's accessible for ALL students.

### **Trainers: Meet the Needs of All Learners**

Hold highly interactive classes with easy-to-use, yet powerful tools designed for teaching and learning. Encourage a student-centric approach that meets the needs of all types of learners while ensuring consistent delivery and eliminating costly travel.
