

21st Century students learn differently, and 21st Century educators need the tools to reach them. Elluminate's enabling technology and "learning-edge" products take you beyond the virtual classroom to support the entire online instructional cycle—what happens BEFORE, DURING, and AFTER your real-time session. Welcome to EDU 2.0!

Before

Elluminate *Plan!*™ allows you to organize, script, and package content and activities ahead of time, automating routine tasks during the live session, so you can focus on facilitating real-time interaction. Expand the use of live eLearning to more instructors and leverage content created by others.

During

Elluminate *Live!*® enables instructors and students to interact and collaborate in real time to add synchronous content to asynchronous distance learning or combine blended online/onsite learning activities. Engage more people in more ways to promote active learning and improve student performance.

After

Elluminate *Publish!*™ allows you to create standalone recordings, audio podcasts, or high-definition video podcasts from Elluminate *Live!* session recordings. Store on computer, LMS, website, or CD-ROM. Play back the industry-standard audio and video files on your iPod or view the standalone recordings even when not connected to the Internet.

The Evolution of the eLearning Landscape. **Powered by Elluminate.**

What does Elluminate do?

Millions of educators and students worldwide have experienced the Elluminate difference. Today, Elluminate's "learning-edge" products take educators into the interactive virtual classroom and beyond. Not only do our web, video, and audio social learning solutions support activities across the entire online instructional cycle, they also integrate with existing applications in the academic infrastructure and scale easily from department or campus level to complex, multi-campus enterprise-wide deployments.

Elluminate the enterprise

Education in the 21st Century is all about engaging more students in more ways with universal access, personalized learning, and a global classroom. At the same time, it's important to create a culture of collaboration between departments, campuses, and institutions to facilitate communication, decrease costs, and increase competitive advantage. We call it "elluminating the enterprise." And Elluminate's enabling technology is enterprise-ready, taking you from departmental to cross-organizational deployment with ease.

Connect the enterprise

Elluminate is an essential part of the education infrastructure, providing a superior technical foundation that enables you to easily install, deploy, and support our real-time virtual classroom. Elluminate Bridges provide a fully integrated, live eLearning solution that combines Elluminate *Live!* with your existing learning or content management system, directory services, or academic portal for a connected learning enterprise.

Why is Elluminate the clear choice for educators?

- Provide 21st Century tools for 21st Century learning
- Add live interaction to distance learning
- Extend the boundaries of the physical classroom
- Engage more students in more ways
- Improve student outcomes
- Create reusable learning objects
- Leverage institutional expertise
- Build community and foster social networking
- Facilitate research and collaboration

A company you can count on

The numbers don't lie. With more than 600 million web-collaboration minutes served to over 7 million users in 170 countries, Elluminate is a company you can count on to deliver exceptional outcomes across the enterprise. No wonder Elluminate is the clear choice for educators worldwide.

"Elluminate enables us to offer a broader solution that can support all campus activities, not just online courses."

– Don Carter, E-Learning Center Director, Northern Arizona University
