

lite edition™

Want to determine if live eLearning and web collaboration is right for your organization?

Try Elluminate *Live!*® Lite Edition™, an affordable, easy-to-use way to connect with students or colleagues—at your convenience. **Experience the difference today!**

Enhance Communication, Enable Dynamic Collaboration

Imagine that you're in an instant messaging discussion with a colleague, but you need to enhance your communication by showing a presentation. All you have to do is send your Elluminate *Live!* link via IM, and with a single click, you are both in a collaborative session, with full-duplex audio, interactive whiteboard, direct messaging, and advanced moderator tools. It's that fast—and easy.

Get started today with the basic functionality of Lite Edition. Upgrade easily to Academic or Enterprise Edition. Whether you are a college or a corporation, Elluminate *Live!* enables you to communicate, collaborate, and educate like never before. Facilitate small group interaction, enable blended onsite/online learning, create dynamic online communities that foster social networking, and much more.

Reduce Travel Expenses, Decrease Telecommunications Costs

Here's another scenario: You have a widely dispersed team of co-workers or students who need to collaborate on a project. Imagine conducting weekly meetings with Elluminate *Live!* Communicate using full-duplex audio or chat. Brainstorm using the interactive whiteboard. It's as if the entire team got together in a conference room once a week—regardless of location.

If you're tired of the cost and hassle of air travel and teleconferencing, Elluminate *Live!* lets you reach your students, staff, colleagues, customers, and partners in new ways. Conduct cost-effective online team meetings, sales presentations, professional development training, employment interviews, virtual office hours, and more—all while maintaining the effectiveness of face-to-face interaction.

What makes Elluminate the clear choice for live eLearning and web collaboration?

- Best-in-class user experience, with *No User Left Behind*™ technology that ensures everyone is in sync and no content is ever lost
- Crystal-clear, full-duplex audio that replicates interaction of face-to-face classroom
- Universal access for Microsoft Windows, Mac OS, Linux, and Solaris users
- Advanced moderator tools for easy content creation, presentation, and control, along with unprecedented moderator awareness
- Collaborative Communication Framework (CCF) for optimal connectivity, reliability, and performance, regardless of Internet connection speed
- In-sync communication that supports all teaching and learning styles for an engaging learning environment
- User-friendly, intuitive interface that's easy to use and customize
- Accessibility features that enable users with disabilities to fully participate
- Rapid return on investment (ROI), with increased productivity and decreased travel and phone costs
- Industry-leading customer service and a community of users where you can share your experiences and learn from others

V8

How does Elluminate Live! engage more people in more ways?

- **Crystal-clear, full-duplex audio** supports simultaneous speakers and delivers synchronous voice over the Internet that's accessible at low bandwidths and automatically optimized for use with other classroom elements.
- **Shareable, interactive whiteboards** include drawing tools and image and PowerPoint import. Copy and paste anything from your desktop onto the whiteboard on the fly. Displayed objects are dynamic, so they can be edited, grouped, layered, or aligned.
- **Chat** offers instant public and private messaging to one, all, or a selected group of participants. Messages can be filtered, time-stamped, and saved to track session communication.
- **ESP (Elluminate Sensory Perception) moderator tools** put the instructor in control of both small and large groups with attendee lists, participant sort, permission granting, instant polling, and sequenced hand raising. Activity and emotion indicators inform instructor of student status.
- **Accessibility features**, including multiple streams of closed captioning, enlarged video, auditory event notification, short-cut keys, and screen reader access, enable disabled users to more fully participate.
- **Robust performance** enables students to get whiteboard content quickly, share applications more effectively, and reconnect automatically if Internet connection is lost.
- **Language translations** include Spanish, French, Chinese (Simplified), Japanese, Portuguese (Brazilian), German, and Arabic.

Transform Your Online Collaboration

Elluminate Live! is built specifically for real-time collaboration. Our unique Collaborative Communications Framework (CCF) automatically ensures that all participants are in sync, regardless of computer platform or Internet connection speed. Our *No User Left Behind* technology means all participants, even those with disabilities, always get the same superior quality, performance, and dependability—with no lag time or garbled communication.

All Elluminate Live! components are tightly integrated to provide the ultimate interactive environment for online meeting and training. With Elluminate Live! you get world-class communication, interaction, and education that transforms the online experience.

Minimum System Requirements

Server Requirements (100 Concurrent Users)

- Windows 2000/2003 Server, Mac OS X 10.4, Solaris 10, Red Hat Enterprise Linux v4 for x86, Novell SUSE Linux Enterprise Server 9/10
- 1.2 GHz Pentium 3 (Windows, Linux, or Solaris), 2 GHz G5 (Mac OS X and Mac OS X Server), 750 MHz UltraSPARC II (Solaris)
- 512 MB of RAM
- Static IP address with 1-2 Mbps outbound bandwidth for every 25 users
- 400 MB of free disk space

Windows Client

- Windows 2000/XP/Vista
- Pentium III 500 MHz processor
- 256 MB RAM

Mac OS Client

- Mac OS X 10.2.8/10.3.9/10.4
- G3, G4, G5, or Intel processor
- 256 MB RAM

UltraSPARC Solaris Client

- Solaris 10 (SPARC only)
- UltraSPARC IIc 300 MHz
- 128 MB RAM

Red Hat Linux Client

- RHEL 4
- Pentium III 1 GHz processor
- 256 MB RAM

Novell SUSE Linux Client

- SLES9/SLES10
- Pentium III 1 GHz processor
- 256 MB RAM

In addition, all clients require:

- 20 MB free disk space
- Soundcard with speakers and microphone or headset
- 28.8 kbps Internet connection
